

# Ian Bayly

Motivated front-end developer and UX/UI designer building application components and responsive websites using React and other modern libraries. Established leader with excellent communication skills. Passionate about application design and usability. Full proficiency in Adobe Suite programs.

## Education

British Columbia Institute of Technology - Vancouver, BC

### Digital Design and Development - Diploma

September 2019 - May 2021

Completed a 2-year accelerated program focused on modern development skills while incorporating UX/UI design. Core activities included:

- Designing and developing interactive modular components using React.
- Learning and practicing mobile-first approach to developing websites.
- Creating working environments using React, Next.js and Node.js
- Developing unique UI designs with HTML and CSS.
- Conducting usability testing to identify UI improvements.
- Leading a team of designers, front and back-end developers to create 2 different social apps.

## WORK EXPERIENCE

Woking Dragon - Coquitlam, BC  
Ricky Chow - 604-440-3587

### Driver/ Expediter

September 2018 - April 2020

Worked in a high pressure, demanding kitchen environment packing orders and managing a team of drivers ensuring on-time deliveries and customer satisfaction. Developed great communication skills delivering orders, and perfected de-escalation techniques while handling unpleasant customers.
